2017 Annual Participant Fee Disclosure Statement

Alliance Coal, LLC and Affiliates Profit Sharing and Savings

The Alliance Coal, LLC and Affiliates Profit Sharing and Savings (“Plan”) is a participant directed individual account plan as defined in ERISA §3(34). Because of this, certain Plan related information must be disclosed to you each year. This Annual Participant Fee Disclosure Statement (“Disclosure Statement”) is intended to advise you of information regarding fees associated with your participation in the Plan.

This Disclosure Statement is provided to you by INTRUST Bank, N. A. your Plan's service provider, on behalf of the Plan Administrator.

Section I provides general information regarding the operation of the Plan.

Section II provides information regarding charges for administrative expenses the Plan may incur.

Section III provides information regarding individual expenses you may incur as a Plan participant, beneficiary or alternate payee.

Included with this Disclosure Statement is an Investment Comparative Chart ("Comparative Chart") which tells you about the investment options offered to you as designated investment alternatives in the Plan.

Any fees actually charged against your Plan account will be noted on your participant statement. Any fees charged will be accounted for in the Gain (Losses) column under Investment Activity. The actual amount of the fees and a description of the fees charged against your account will be stated at the end of the Investment Activity section of your account statement.

Section I-General Plan Information

You may direct the investment of your account balance in the Plan.

Your Plan has an automatic enrollment feature. With this automatic enrollment feature, a percentage of your compensation is withheld each pay period and contributed to the Plan. If you were automatically enrolled in the Plan, your deferrals and any employer contribution will be invested in the qualified default investment alternative explained below. You may change from the qualified default investment alternative to other investments offered in the Plan at any time.

You may make changes to how your Plan account is invested at any time by accessing www.nesteggu.com/arlpl, by using the Voice Response Unit ("VRU"), or by calling the Customer Solutions Center.

Internet After accessing www.nesteggu.com/arlpl, select “My Account,” enter your User ID and Password, select the appropriate Plan shown on your screen, select “Change” and then select “Investment Elections” or “Transfer Funds”.

VRU You access the VRU by calling 1-877-410-9984. When asked for the extension for your plan provider, enter 1111 and then enter your Login ID and Password when prompted and follow instructions to make desired changes.

Customer Solutions Center You may contact the Customer Solutions Center by calling 1-866-412-9026.

Limitations on Instructions

You may change your investment elections in the mutual funds via the internet or VRU at any time. Instructions given on a business day before 3:00 p.m. Central Time will be processed the same day. In the event the financial markets or the bank is closed on the day you give your investment instructions, your instructions will be processed the following business day.

Your Plan currently allows you to continue to hold investments in WPX Energy, Inc. and in Williams Companies, Inc. You may sell shares held in your Plan account in these companies, but you may not purchase any additional shares in your Plan account.

Voting and Other Rights

The trustee will exercise any voting or other rights associated with ownership of your investments held in your Plan account with the exception of investments in WPX Energy, Inc. and Williams Companies, Inc. The voting rights associated with those investments are passed on to you so that you may direct the Plan's trustee as to how you wish to vote.

Designated Investment Alternatives

The Plan provides designated investment alternatives in which you may direct the investment of your Plan account. The Comparative Chart lists the designated investment alternatives and provides information regarding the alternatives. You may request fund prospectuses for the designated investment alternatives by calling 866-412-9026 and speaking with a Customer Solutions Center representative.

Qualified Default Investment Alternative

Your Plan has a qualified default investment alternative. If you do not make your own investment elections, contributions to your Plan account will be invested in the qualified default investment alternative. The qualified default investment alternative for your Plan is the Target Retirement Date model that most closely represents your Normal Retirement Age. The Comparative Chart lists and provides information regarding funds that make up the qualified default investment alternative.

Company Stock

Your Plan allows you to continue to hold investments in WPX Energy, Inc. and in Williams Companies, Inc. This stock is publicly traded. If you hold stock in your Plan account, you are always provided all information given to shareholders and all voting, tender and similar rights are passed through to you. The Plan's trustee is the designated fiduciary to ensure information regarding the purchase, sale, and holding of company stock, and the exercise of voting, tender and similar rights is maintained. The Plan's trustee has procedures in place which protect the confidentiality of the participants' purchase, sale and exercise of voting, tender and similar rights. Should there ever be a potential for undue influence on a participant's decision to vote or tender shares, an independent fiduciary will be appointed to address these situations.

Fiduciary Adviser

The Plan offers Participant Investment Advice. INTRUST Bank, N. A. ("INTRUST") is the Plan's Fiduciary Adviser. To participate in Participant Investment Advice you should contact INTRUST by calling 800-242-7111 Extension 4015 or 316-383-4015. An INTRUST representative will talk with you about Participant Investment Advice and help you with the paperwork necessary to participate in this program.

Section II-Administrative Expenses

Service providers are compensated for their services to the Plan. The trustee fees, participant recordkeeping fees and participant educator fees (“Administrative Expenses”) are paid with revenue sharing payments the Plan receives. If the revenue sharing payments do not cover the Administrative Expenses, Plan forfeitures are used to pay the balance of the Administrative Expenses. In the event the expenses exceed the revenue sharing available and the available Plan forfeitures, the Plan Sponsor pays the balance of the Administrative Expenses. **There are no Administrative Expenses charged against your account in the Plan.**

Section III-Individual Expenses

The Plan imposes certain charges against individual participant’s account balances rather than against the Plan as a whole when individual participants incur the charges. These charges are listed below.

Stock Trades

There are commissions associated with stock transactions in the Plan. The trades to sell Williams Companies, Inc. stock and WPX Energy, Inc. stock are placed through Knight Equity Markets ("Knight") and Knight receives a commission of \$0.03 for each share traded. This fee is netted against the trade proceeds.

Redemption Fee

Buying or selling some investments may result in a redemption fee. The Comparative Chart provides information regarding any redemption fee that may be incurred.

Participant Investment Advice

If you participate in Participant Investment Advice, the quarterly fee charged by INTRUST for Participant Investment Advice is 10 basis points of the fair market value of your account balance at the end of each quarter. If your account balance is \$100,000.00 your quarterly fee would be \$100.00

Loan Origination Fee

There is a loan origination fee of \$50.00 for each participant loan you make from your Plan account. This fee is not deducted from your Plan account, but is taken from your loan proceeds. For example, you request a \$5,000.00 loan. Your \$5,000.00 loan request is processed and \$5,000.00 is borrowed from your Plan account. The \$50.00 loan origination fee is deducted from your loan proceeds and you receive a check in the amount of \$4,950.00 representing your loan amount less the loan origination fee. You are responsible for repaying the \$5,000.00 loan amount plus interest from the date of the loan.

In the event you request a participant loan and then decide you don’t want the loan before negotiating the check representing the loan proceeds, your account will be charged the \$50.00 loan origination fee even if you cancel the loan.

You may view this 2016 Annual Participant Fee Disclosure Statement and the accompanying Investment Comparative Chart on-line by going to www.nesteggu.com/arlp, selecting “My Account,” entering your User ID and Password, selecting “Reports & Forms” and then selecting “Plan Information.” There is also a Glossary of Terms available to help you understand investment terms used in the Investment Comparative Chart. To view the Glossary of Terms, go to www.nesteggu.com/arlp, select “Investor” and then select “Glossary of Terms” at the bottom right of your screen.

*There is a risk to holding substantial portions of your assets in the securities of any one company. To help achieve long-term retirement security, you should give careful consideration to the benefits of a well-balanced and diversified investment portfolio. Spreading your assets among different types of investments can help you achieve a favorable rate of return, while minimizing your overall risk of losing money. If you invest more than 20% of your retirement savings in any one company or industry, your savings may not be properly diversified. Although diversification is not a guarantee against loss, it is an effective strategy to help you manage investment risk.

Fee and Expense Information

The table below shows Total Annual Operating Expenses and Redemption Type Expenses for plan investment alternatives. Total Annual Operating Expenses are referred to as the Gross Expense Ratio and represent the cost of running a fund as compared to the profit earned by the fund. Fees shown in the Redemption Type Fees are in addition to Total Annual Operating Expenses. Net Operating Expenses are shown on the following page. Net Operating Expenses are referred to as the Net Expense Ratio and represent the gross expense ratio minus any fee waivers or expense reimbursements made to investors by the fund. **The Net Expense Ratio reflects the amount of money each fund investor actually pays for fund operating costs.**
